QUESTIONNAIRE

Part 1: Essay questions

1	<ul style="list-style-type: none">• <i>What is your most important objective, and how can I help you realize it? (What do you need me for?)</i> (Max. 800 characters) <p>Our main goal is to manage systematically the monitoring and the study activities of the Environment.</p>
2	<ul style="list-style-type: none">• <i>What criteria do you use to assess whether my contribution to your work has been successful?</i> (Max. 500 characters) <p>The sharing of planning actions allows effective supportive activities to improve sustainable development policies; ARPA Molise, in the field of environmental planning activities, considers important to identify useful environmental indicators to assess the effectiveness of the taken actions;</p>
3	<ul style="list-style-type: none">• <i>If I were able to change two things in my area of responsibility within the next six months, what two things would create the most value and benefit for you?</i> (Max. 500 characters) <ol style="list-style-type: none">1) ARPA Molise believes that it is important to better plan and manage the aspects of urban and industrial sewage treatment in the coastal area.2) It should be better plan and manage the sediments of the ports located in Molise.

4	<ul style="list-style-type: none">• <i>What do you think about strengths, weaknesses, opportunities and threats of your own territory? ("Stakeholder viewpoint");</i> (Max. 600 characters) <p>Strengths: great value of landscaping, naturalistic and agro-food heritage; Weaknesses: Weak awareness of the value of this heritage, poor support of regional and national bodies for its management. Opportunities: implementation of biological production activities, implementation of environmental management systems and restoration of indigenous antique crops and cultivations (hulled wheat, corn, wheat, etc ...). Threats: Coastal erosion, environmental pollution related to the industrial area of Termoli Municipality (CB), partial reclamation of contaminated sites.</p>
5	<ul style="list-style-type: none">• <i>Have you Experiences in the matter / initiatives / policies related to the development of "sustainable coastal systems", with particular reference to solutions that can preserve natural habitats and at the same time support the growth of eco-tourism strategies?;</i> (Max. 500 characters) <p>ARPA Molise actively participated in the project SHAPE between coast and sea grated in the framework of the IPA CBC Programme 2007 – 2013. The project was an integrated proposal for the Adriatic region, aimed at creating the basis for the protection and sustainable development of the marine-coastal environment. The strategic objective was to develop a multilevel and intersectoral governance system based on a holistic approach and with the aim of pursuing integrated management of natural resources, risk prevention and conflict resolution between uses and between users.</p>
6	<ul style="list-style-type: none">• <i>Do you have suggestions or specific requests to the partner organisation?</i> (Max. 500 characters) <p>To promote a system for the involvement and sharing of marine-coastal naturalistic pathways, which also must enhance the knowledge and dissemination of the local agro-food and top-quality manufacturing productions. The partnership enhancement can also be boosted through study visits organized with the support of touristic and agro-food experts.</p>
